

CERTIFICATE IN ADVANCED SCHOOL SAFETY AND SECURITY

In our often frightening and confusing world, emergency situations in schools have become more and more frequent. In times of unpredicted danger and distress, to whom do we turn who has the training and experience to handle the situation correctly?

You can be that person. Rather than waiting for catastrophe to strike, start thinking now about the role you can play in prevention and response.

Goodwin College now offers a 16-credit collegiate Advanced School Safety and Security Certificate, specifically designed for individuals already working in law enforcement, security, and education. You've made the commitment to keeping schools safe; we can help you increase your skill set with the latest knowledge and best practices related to this area.

In just two semesters, you will be able to:

- ▶ Identify evolving threats to your school security
- ▶ Work with risk management tools to assess potential threats, security risks, and liabilities
- ▶ Develop a proactive emergency management plan including prevention, mitigation, preparedness, response, and recovery
- ▶ Evaluate post-crisis plans for managing media and parent communication; mental health services for first responders, victims, and families; financial implications; liability issues; and operational continuity

The need is growing for educational, law enforcement, and security professionals who can plan for emergencies before they happen — and react appropriately when they do.

CURRICULUM

First Semester		
HSM 112	Introduction to School Safety and Security	3
