

Entrance Requirements to the Phlebotomy Program

I have been informed that:

If I have any felony convictions on my record, I may not be eligible to participate in the Phlebotomy Internship which is a requirement for successfully completing the program. A criminal background check and drug screen are required before the start of the semester. The results of these reports may prevent a student from being accepted into the program and/or participating in the internship portion of the class, which may affect future employment.

Additionally, I will provide the following:

Documentation of:

- _____ Hepatitis B Series (3 doses) or Immunity
- _____ MMR 1 & 2
- _____ Evidence of non-reactive 2 step PPD or Quantiferon within the past 12 months.
The time between the 2 step PPD must be 1-3 weeks.
- _____ Varicella Zoster Titer
- _____ Physical Exam
- _____ Flu Shot

Proof of:

- _____ Health Insurance
- _____ Professional Liability Insurance
The Healthcare Providers Service Organization (HPSO) offers a student rate for liability coverage for approximately \$30.00 per year. HPSO can be reached at 1-800-982-9491 or by visiting www.hpso.org.

Internship Requirements:

- _____ I understand that I must earn a minimum grade of "C" in all Phlebotomy courses in order to go on the internship
- _____ I understand that the internship hours are at the discretion of the sponsoring site.
- _____ I understand that as a student in the Phlebotomy program I am required to participate in all aspects of the clinical skills involved in PHB 120 and PHB 121.

I understand that failure to provide the above will result in my inability to participate in the Phlebotomy Program.

Any questions about program requirement may be routed to the Health Science Administrative Assistant at 860-913-2164.
