

**Request for Qualifications for a Magnet Pre-K School
(State Project 542-0007)**

and

**Request for Qualifications for a Magnet Technical High School
(State Project 542-0008)**

Questions Received by August 5, 2022:

Q. As the Requests for Qualifications for both the Magnet Pre-K School and Magnet Technical High School are similar in scope of services and required qualifications, may a respondent submit a single response which highlights experience in each project type?

A. No. A separate submission must be provided for each project. While we understand there will be duplicate information, each State project must have a separate solicitation process.

Q. Does Goodwin wish to have certificates of insurance included in the qualifications submissions?

A. No. An insurance certificate is not required until execution of a contract with a selected firm.
