

The MPH program can be completed in as few as 12-15 months.

Coursework is available in a flexible fully-online format.

The Public Health program is taught by a faculty of industry experts.

Master's Degree in Public Health

Earn your master's degree in Public Health and make a difference

Public health problems affect us all, no matter who you are or where you live. The need for individuals with the proper education and skillset to address these issues continues to grow. With a master's degree in Public Health, you will be prepared to make a lasting impact in your community.

Our MPH program

Gain the insight and tools necessary to advance your career and compete in today's highly competitive job market. In as few as 12-15 months, this program will teach you how to tackle a range of public health issues from acute and chronic illnesses to lifestyle and health behavior change, including maternal and child health, the opioid epidemic, Medicare for all, influenza, obesity, and emerging health issues.

Flexible online classes

The MPH program is offered fully online in an accelerated 7-week format. With six class starts per year you can enter the program when the time is right for you! Take classes full- or part-time and complete in as few as 12-15 months.

Choose from three concentrations:

- Community Health
- Global Health
- Health Policy and Management

Our MPH program promotes equity, inquiry, health, and well-being, as well as the development of highly skilled leaders who become public hospital administrators, policy makers, public health directors, community leaders, and more.

With three concentrations to choose from, your MPH will enable you to meet your personal and professional development goals.

Goodwin University and the University of Bridgeport are private nonprofit institutions of higher education. Both are accredited by the New England Commission of Higher Education (NECHE), formerly known as the New England Association of Schools and Colleges (NEASC).

No GRE required

Unlike many other online MPH programs, we don't require GRE scores for admission. We know you work hard enough, so there's no need to take additional tests prior to admittance into the program.

The benefits of two universities

This is a joint program offered by Goodwin University and University of Bridgeport. You will learn alongside fellow students from both universities and share experiences in a richly diverse learning environment. Upon completion, your master's degree will list both universities.

Prepare for a rewarding career as a:

- Biostatistician
- Community health nurse
- Congressional staffer
- Environmental health officer
- Epidemiologist
- Health promotion specialist
- Non-profit executive director
- Public health officer
- Public health traveling nurse
- Researcher

All applicants to the MPH program must:

In addition to meeting the University's requirements for all graduate program applications, students interested in the Master of Public Health must also:

- Complete the graduate program application.
- Possess a bachelor's degree in any field from a regionally accredited institution.
- Submit official transcripts verifying receipt of a bachelor's degree from a college or university accredited by an accrediting agency recognized by the Council for Higher Education Accreditation (CHEA) or the equivalent of this degree from another country.
- Complete a statement of goals.
