

SNAP Employment and Training Program

Certificate in Mechatronics

Lead the next industrial revolution.
 In our two semester, full-time, 36-credit Mechatronics certificate program, students will combine mechanical, electrical, computer, and software skills to prepare for positions operating and maintaining the electro-mechanical, computer-controlled systems commonly found in automated manufacturing environments.

The Mechatronics program is designed so participants may rotate between practice (workplace) and theory (classroom) throughout the program.

Program Schedule

Tuesday and Wednesday: 8 a.m. - 4:30 p.m.
 (includes 30-minute lunch)
 Thursday: 8 a.m. - 12 p.m
