Medical Billing and Coding

Make a meaningful difference in an in-demand field

Not every healthcare career is about clinical skills. Now, more than ever, we need medical billing and coding experts to support the financial and operational side of patient care. As a Certified Professional Coder (CPC), you'll perform critical tasks such as managing patient records, ensuring accurate documentation of diagnoses and treatments, and submitting claims to insurance companies. At Goodwin University, our 100% Medical Billing and Coding (MBC) program will equip you to excel in this essential field — preparing you for success from classroom to career.

Gain career-ready knowledge and future-proof skills

The expenses associated with healthcare are often a source of anxiety for patients. When you pursue a Medical Billing and Coding certificate at Goodwin, you will gain the knowledge and skills necessary to reduce the stress of navigating insurance and payment plans. You will learn from expert faculty in a collaborative learning environment focused on today's best practices — all while developing the fundamental coding skills needed to adapt to evolving technology.

Balance your personal priorities and professional goals

You deserve a university with the flexibility needed to achieve your career goals without cutting corners in your personal life. At Goodwin, our Medical Billing and Coding program keeps your non-academic priorities in mind. **Classes are offered entirely online** in an engaging virtual setting — blending the benefits of collaborative learning with the convenience of remote scheduling.

No-cost career training eligible for participants of:
