- **Staff reports on status of magnet schools** **Lynn Guerriero presented**
  - Per General statute we must charge tuition for PreK students whose family income is above 75% of the state median income. We strongly felt that CREC and Goodwin College need to implement at the same time so as to not impact the enrollment negatively at either of the institutions because one was charging and the other is not.
  - Implement charging for PreK in 2018-19 school year for incoming preK students only. From 2019-2020 on we will charge for all PreK students. Amount to charge has not yet been determined.
  - Potentially implementing a sliding scale for those parents with siblings in the school.
  - *Mark Scheinberg arrived at 3:16pm during the Staff report.*
