

BACHELOR'S DEGREE IN HEALTH SCIENCE

Alex Hall, Health Science student

The bachelor's degree in Health Science is an interdisciplinary program designed to provide career advancement opportunities to entry-level health profession practitioners as well as to individuals just beginning their careers in health care. This program embraces students with different backgrounds and interests and helps students achieve their educational goals through four different tracks.

GOODWIN OFFERS FOUR AVAILABLE TRACKS IN THIS FIELD OF STUDY:

Environmental Health

You will gain an understanding of the impact of environmental conditions on human health.

Health Care Administration

You will gain acquire knowledge of the business challenges specific to the health care delivery system and you will gain an appreciation of the manager's role in this complex system.

Bachelor's Degree Completion

This track allows the creation of career paths and advancement opportunities if you already possess a certification, licensure, or registry through a professional organization but lack a collegiate degree.

Health Care Career Exploration

You will be able to explore various careers and aspects of health care. This track is appropriate if you have not yet decided on a specific health care profession but are interested in pursuing a career in health care.

No matter which track you chose, you will have a strong foundation in health care and be prepared for career advancement opportunities.
