

ASSOCIATE DEGREE IN BUSINESS ADMINISTRATION

Lester Castro II, Business student

TAILOR YOUR DEGREE

Our associate degree in Business Administration allows you to tailor your degree and your schedule to meet your specific career goals.

You will have the ability to focus your efforts effectively through a concentration in Business Administration, Office Management, Human Resources Management, Entrepreneurship, or Manufacturing Management. You can build your own schedule that works best for you. Take classes on-campus, online, or in a hybrid format. For greater flexibility, you can take accelerated 7½-week classes or standard 15-week classes to finish your degree at your own pace.

Through your coursework, you will become proficient in business law and ethics, corporate social responsibility, business planning and development, effective leadership, and the fundamentals of accounting, budgeting, and marketing principles. These are all essential skills businesses are looking for. You will also become skilled in learning how to analyze and solve problems faced by managers in corporations, small businesses, government agencies, and nonprofit organizations. You will gain the knowledge needed to be successful through the exploration of business communication, economic theory, and effective forecasting.

You will have the opportunity to build a business plan relevant to your career aspirations that integrates the skills and knowledge you've learned in your courses. You will benefit from a hands-on internship experience in a real business environment. Upon completion of the program, you will be prepared for excellent career opportunities in the field or for transition into your bachelor's degree program.
