

BACHELOR'S DEGREE IN CHILD STUDY

Dena Booker, Child Study Graduate

SHAPING THE MINDS OF TOMORROW

You can make a positive difference in the lives of children. From birth through eight years old, children need a strong foundation of support and knowledge to realize lifelong success. By becoming an early childhood professional, you can play a crucial role in child development and early learning.

Parents, families, and communities need devoted, nurturing — and knowledgeable — professionals who are invested in supporting children and their families. Early childhood professionals are ethical decision makers with the skills to foster relationships and engage in informed advocacy on behalf of children, their families, and their communities.

Students will have extensive opportunities for hands-on learning throughout the degree program in Child Study. Students will gain experience in a variety of early childhood settings, including our state-of-the-art Reggio Emilia-inspired Riverside Magnet School.

Graduates of our Child Study and Early Childhood Education programs can obtain their Connecticut Early Childhood Teacher Credential (ECTC). Goodwin College has been approved by the Office of Early Childhood for both the Infant/Toddler and Preschool levels.

CURRICULUM

General Education Core - 40 credits		
ENG 101	English Composition	3
ENG 1XX	Writing Competency (WR)	3
ENG 2XX	Advanced Writing Elective (AW)	3
COM 1XX	Communications Competency (COM)	3
