

ASSOCIATE DEGREE IN EARLY CHILDHOOD EDUCATION

Madeline Graham, BS Child Study Graduate

SHAPING THE MINDS OF TOMORROW

You can make a positive difference in the lives of children as an Early Childhood educator. Our associate degree in Early Childhood Education is designed to provide you with a solid academic foundation and hands-on experience in early childhood settings.

Early Childhood Education is the study of children from birth through age eight. You will gain knowledge of how to work with children and their families in a variety of settings based on child development and age-appropriate practice. Early Childhood professionals have a comprehensive knowledge of child growth, development, and learning, and are able to apply this knowledge to their practice. They can communicate effectively with children, colleagues, and families. As a teacher of young children, you will have the ability to work collaboratively and in partnership with others in order to deliver high quality early childhood education.

Following completion of the program, students will have the necessary skills and knowledge to become gainfully employed in the field of Early Childhood Education and/or to continue their education towards a bachelor's degree in Child Study or related fields.

CURRICULUM

General Education Requirements - 24-25 credits		
ENG 101	English Composition	3
ENG 1XX	Writing Competency <small>(WR)</small>	3
