

ASSOCIATE DEGREE IN SUPPLY CHAIN AND LOGISTICS MANAGEMENT

MAKE YOUR MARK

Make your mark – with our associate degree in Supply Chain & Logistics Management. Our program will provide you with working knowledge and organizational skills that can be applied to all manufacturing and logistics environments. You will be prepared to manage distribution, inventory, packaging, and warehousing in manufacturing and other business environments.

An associate degree in Supply Chain and Logistics Management covers the basics of supply chain management, manufacturing planning and control systems, purchasing, and the physical distribution of goods to customers. Team work and communications skills will be enhanced by use of problem solving and lean process improvement techniques to improve warehouse, distribution, and supply chain operations.

You will earn 61 college credits and along the way have the opportunity to receive nationally-recognized credentials from the Manufacturing Skill Standards Council (MSSC) as a Certified Logistics Associate (CLA) and as a Certified Logistics Technician (CLT).
